## April is an exciting time at South Shore Bank!

### Dan Picha, Director of Payments, Digital and Specialty Banking

Each year April brings with it encouragement that summer is nearly upon us. This year, I am particularly excited for all the imagery that comes along with summer: the beach, golfing, outdoor cookouts, swimming, gardening and being around family and friends just to name a few. I hope that April brings you and your loved ones the same excitement and anticipation for summer!

At South Shore Bank, April brings much excitement, too! First, we have launched our April Showers Bring May Dollars campaign. Throughout the month of April, every time you use our Face2Face® virtual teller machines you will be entered into a sweepstakes to win a \$1,000 South Shore Bank Mastercard®. Additionally, 50 random individuals will be awarded \$20 in the form of an account credit or cash (View Contest Rules Here). Please visit one of our 13 Face2Face® locations and try it out – our team will be happy to assist you.

April also brings the official launch of the Bank's rebranding campaign. We are all proud of this work and proud of being part of the Bank where Success is Shared! You'll see the brand come to life on our website, social media and our advertising. This is not just about updating our logo, it exemplifies our commitment as a mutual bank and the role we play in our community and our clients' lives. We look forward to continuing to serve you in achieving your goals and helping our community thrive.

I end as I started, with good wishes to all of you for a great month of April. Thank you for being a client of South Shore Bank – we all look forward to our continued relationship and being here to be your financial partner.

## Our Clients are Talking

### The Follett Company Inc.

"South Shore Bank opened my eyes to what I'd been missing from my last bank. Their personnel are attentive and have helped with buying a commercial building, as well as machinery for my business. They've also helped me build a new home! During these trying times, Dave Willis reached out to me to make sure my business was doing okay, and to see how the bank could help me. He guided myself and my bookkeeper through the process of obtaining a PPP Loan. The process was difficult at first, but with the bank's help, we were able to obtain the loan! When the second PPP loan became available, Dave Willis called me that day and once again was able to help me obtain the loan. South Shore Bank is incredible with the way they service their clients. My only regret is that I hadn't met them earlier". Donald Follett, President of The Follett Company Inc.
